## INTRODUCTION

*An integral part of the International Automobile Federation (FIA), the International Karting Commission (CIK-FIA) governs worldwide Competition and awards the only official titles of World Champion and European Champion in Karting.*

**I**n close collaboration with its Promoter the RGMCC Group, here the CIK-FIA presents the most up-to-date Championships which bring together the best Drivers and the greatest hopefuls of Motor Sport of the future during races of an incredible intensity.

Let's discover the potential of top level Karting as practiced in the CIK-FIA events.

## LE KARTING

*Invented by the Americans in the 1950s, Karting quickly became a great success in Europe and today is a fully-fledged motorsport discipline.*

**K**arting is a great school of life for young people and the best way to learn about driving and racing. The best route for the future car Champions, Karting is also practiced by enthusiasts who devote all their energy to it. The CIK-FIA Championships are open to drivers from the age of 12, with no upper age limit.

Although the kart is basically a machine of simple design, the high standard of Competition makes it a very high level sport where ultra-competent professional teams confront each other.

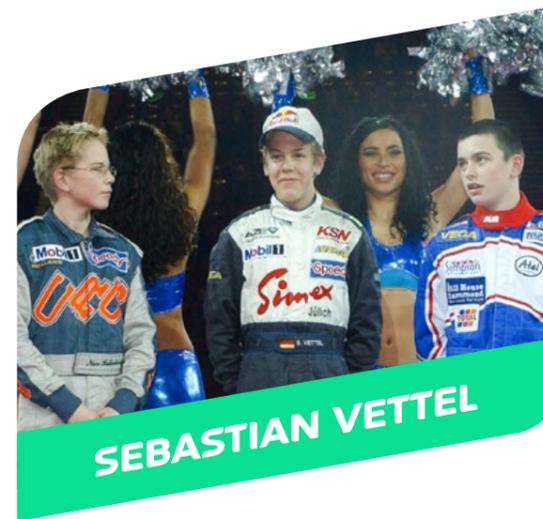

The spectacle provided by Karting events has an intensity rarely seen in motorsport. The closeness of the track, a succession of races throughout the weekend, constant suspense and the beauty of the struggle for victory make it an exciting discipline to experience for both specialists and the general public.

In addition, karting is particularly suitable for live TV viewing and sharing on social networks.
