KARTREPUBLIC

KART REPUBLIC

THE MARK OF SUCCESS BY DINO CHIESA

At the end of the 2017 season, Dino Chiesa officially presented his new chassis brand, intriguingly named Kart Republic. The motto *"we are republic, we are one"* quickly gave clues to the meaning of the name, while the yellow, orange and red design on a white background evokes the colours of the Serenissima Republic, which from 697 to 1797 marked the history of the Padua region, home of the KR brand. The wing refers to the lion of Saint Mark, the symbol of Venice, capital of the Venetian Republic.

It was an immediate success in its first year of homologation in 2018. Germany's Hannes Janker won the European Championship and Italy's Lorenzo Trivisanutto the OK World Championship. The KR chassis quickly became a benchmark at the most important international events, as well as in many countries around the world, and success followed success. At the 2022 World Championship in Campillos, less than four years after its launch, KR was the most represented brand in the paddock. In 2023, KR won two world titles in the OK and KZ categories.

The Kart Republic factory continued to expand, launching the Alonso Kart brand in 2020 and relaunching the famous DAP name in early 2023. The various activities of the Italian company are now grouped together under the name 'KR Global Motorsport Company'. The head of the company, Dino Chiesa, is one of the most influential figures in the world of karting. The Italian engineer is also one of the best talent scouts in the world of karting. He has contributed to the rise of drivers such as Nico Rosberg and Lewis Hamilton, to name but a few. Many Formula 1 academies have placed their trust in him, including Mercedes, Red Bull, Alpine and Sauber. Also in 2023, the famous Prema Racing team entered the world of karting, in partnership with Kart Republic.
